Feedback: Denise, our team leader was on top of us the whole time and made sure we got all the necessary information from the professor and chose the relevant topics for us to do. She did a good job to delegate tasks and papers to each of us and made it fair. Nicolas was also a great team member who completed his jobs. Given that he was a member just like me, I can't say that we contributed the most amount of work because we didn't do anything administrative, but our efforts were 10/10.
